

## Splitterschutzdecke BSD-4 Fragment Protection Blanket BSD-4

Art-No.:100045

### SPECIFICATION BSD-4

Protection: The Fragment Protection Blanket can offer significant protection, in cases when a dangerous item may explode within a relatively short time, e.g. time bombs. Covering the item, in many cases significantly reduce the impact of the explosion.

Fragments, mainly lateral ones will be caught and kept back by the blanket and the ring. In addition **the special design of the blanket "channels" the main impact of the explosion and directs it upwards.**

The blast and the blanket will escape vertically (parachute-effect), horizontal impact is largely reduced.

Material: Outer cloth: customer specific: e.g. anti-static, Cordura, etc.

Ballistic protection: Aramid fabric, several layers, stitched together  
**v50: min. 650 m/s**

Protection in accordance with STANAG 2920 (17 grain FSP)

Parts list: The blanket set consists of a **flexible and adjustable protection ring** (to keep the distance between the

bomb and the blanket) and the **blanket**. A **carry and storage bag** is included.

Weight: approx. 16 kg

Dimensions: Blanket: 145 x 125 cm, Ring: Ø 40 – 70 cm, Height 40 cm
